Hacktober FEST 2019
presented by DigitalOcean and DEV

O que é o Hacktoberfest

- Evento promovido pela DigitalOcean
- Envolve a comunidade global
- Incentivo à contribuir
- Requisito: 4 PR's
- Prêmio: Camiseta

Support open source and earn a limited edition T-shirt!

O que é Open Source

- Código fonte aberto
- Comunidade
- Liberdade e Segurança

Open Source

- Usamos no dia a dia
- Node.js
- Bibliotecas do npm

Como participar

- Site: hacktoberfest.digitalocean.com
- Cadastrar usando o Github
- Começar a contribuir

Porque contribuir com open source ?

- Ganhar a camiseta, é claro!

Hacktoberfest 2019
presented by DigitalOcean and DEV

Porque contribuir com open source ?

- ~~Ganhar a camiseta, é claro!~~
- Retribuir
- Aprendizado / Estudo

Mas o que eu posso fazer?

fidisys/react-native-components #2
Add changelog managment using lerna-changelog
Lerna changelog --> https://github.com/lerna/lerna-changelog
hacktoberfest
JayaKrishnaNamburu opened 4 minutes ago

fidisys/react-native-components #1
Rename fidisys-expandable-card to expandable-card
Since we are adopting lerna the package name at result will be @fidisys/expandable-card so we don't need to have the name again in the package.json file The package which needs to be re-named --> ...

fidisys/react-native-boilerplate #18
Update Readme with example showing degit
Using degit we can take a repo as template and create our own. It will be good to have an example in readme showcasing it. Link for degit --> https://github.com/Rich-Harris/degit npx degit fidisys/react-native-boilerplate ...

mashiromashi/FloodMapFront #2
Changing marker colours according to the water level fetched from the api
As the title says, in the Google map component, the markers should change colors according to the data fetched from the api. Currently, it only changes color when the user clicks on the markers. It should ...

KhaosT/homebridge-camera-ffmpeg #364
vflip and hflip only for video, not snapshots
I have to mount my Raspberry update down for the proper camera view; I set "vflip":true in config.json. I notice only the video is flipped, snapshots are upside down. It is very weird to see ...

sttts/google-maps-mock #3
Example of usage and setup
Can you please show an example of setup and usage? How do you install it and set it up for Jasmine tests? If you load directly into the library, won't it conflict with the real library?
joshm1204 opened 7 days ago

big-neon/bn-mobile-react #174
Use the following function anywhere there is an event image.
The current cloudinary function will fail if the image has already been optimized. function optimizeCloudinary(url, quality = "low", size = "f_auto") { if (!url || typeof url !== ...

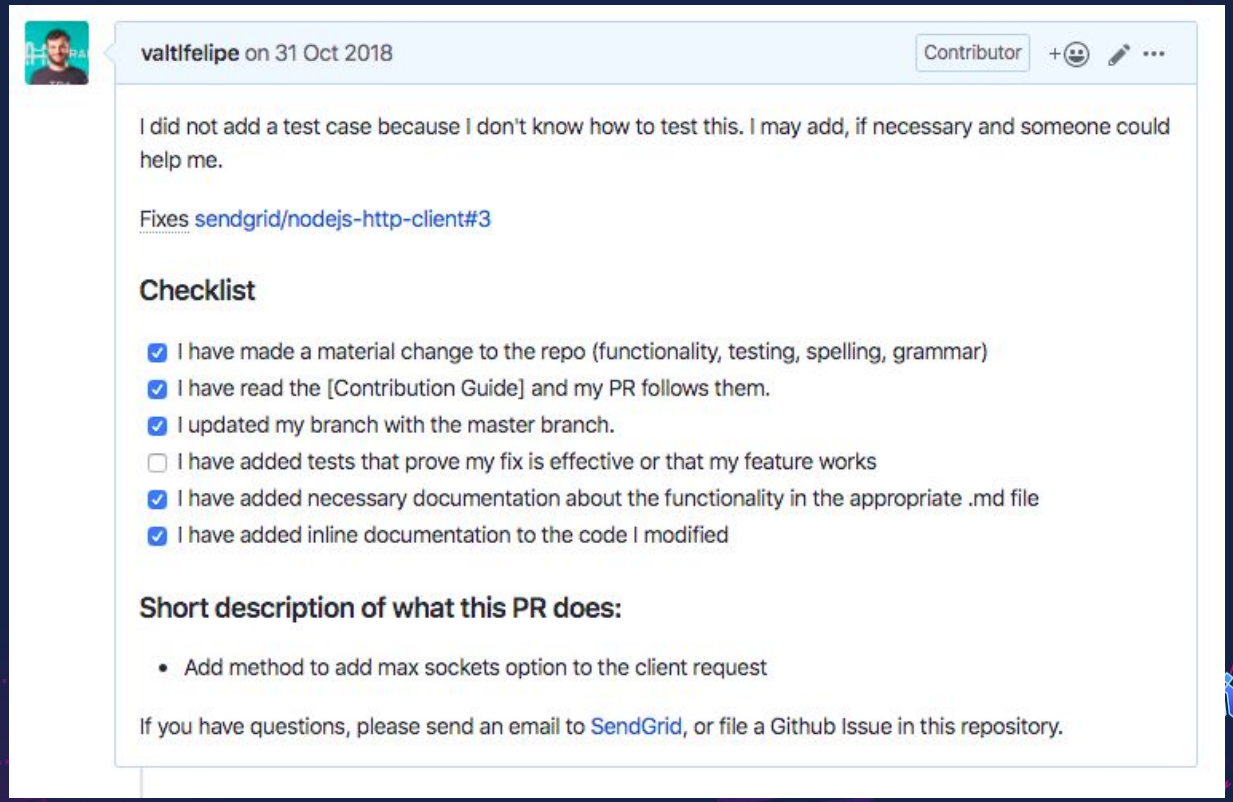
Template para PR



valtlfelipe on 31 Oct 2018 — Contributor

I did not add a test case because I don't know how to test this. I may add, if necessary and someone could help me.

Fixes sendgrid/nodejs-http-client#3

Checklist

- [x] I have made a material change to the repo (functionality, testing, spelling, grammar)
- [x] I have read the [Contribution Guide] and my PR follows them.
- [x] I updated my branch with the master branch.
- [ ] I have added tests that prove my fix is effective or that my feature works
- [x] I have added necessary documentation about the functionality in the appropriate .md file
- [x] I have added inline documentation to the code I modified

Short description of what this PR does:

- Add method to add max sockets option to the client request

If you have questions, please send an email to SendGrid, or file a Github Issue in this repository.
